## Stainless Steel ECL Mixer

### A Portable Mixer Designed for Sanitary Applications

The LIGHTNIN Stainless Steel Enhanced Classic Line (ECL) portable mixer fills the need for a non-painted version of the original ECL. This stainless steel version includes all the features and benefits of the original ECL but has been designed specifically for clean applications such as food and pharmaceutical industries.

#### Mixer Options

- Rigid coupling shaft attachment with male/female pilot to ensure shaft concentricity and minimize shaft run out.
- Optional speed sensor provides the capability to monitor output speed (NEMA 1).
- Available in 1725 (1:1), 350 (5:1), and 280 (6:1) output.
- Variable speed capability with optional VFD.

#### Motor Options

- Standard electric motors are 304 SS, wash down, inverter duty design. Options include Stainless Motors Inc. pharmaceutical design motors and options for 575 V selections.
- Fractional through 3 HP (max).
- Optional Stainless Steel Air Motor - variable speed air motors are safe for explosive environments. They are supplied with a built in speed adjustment air control valve and non-metallic muffler.

## Impeller Options

LIGHTNIN is the world leader of impeller development. Using the latest computerized technology, LIGHTNIN has produced a unique range of impellers dedicated to improving your specific process performance.

Although the A310 is standard on ECL portables, there are many other impellers to satisfy your mixing requirements. Your LIGHTNIN Sales Engineer will review your application and recommend the proper impeller.
